

OMEGA2

UNIVERSAL SITE INTERFACE

Omega2 USI supports Gilbarco's PAM 1000 protocol, allowing POS systems such as VeriFone* to run all major dispensers — even mechanical. Progressive International, the name you trust to understand dispenser protocol, offers the Omega2 as an economical alternative for total fuel control with a POS.

*Not authorized or endorsed by Verifone

OMEGA2 USI is a reliable, economical alternative for handling fuel control with a POS system. Progressive utilizes the latest technology to ensure reliability with all major electronic and mechanical dispensers.

OMEGA2's MAJOR ADVANTAGES
