# OMEGA LITE
UNIVERSAL SITE INTERFACE

OMEGALITE USI is a reliable, economical alternative for handling fuel control with a POS system. Progressive utilizes the latest technology to ensure reliability with all major electronic and mechanical dispensers.

OmegaLite USI supports Gilbarco's PAM 1000 protocol, allowing POS systems such as Verifone* Ruby to run all major dispensers — even mechanical. Progressive International, the name you trust to understand dispenser protocol, offers the OmegaLite as an economical alternative for total fuel control with a POS.
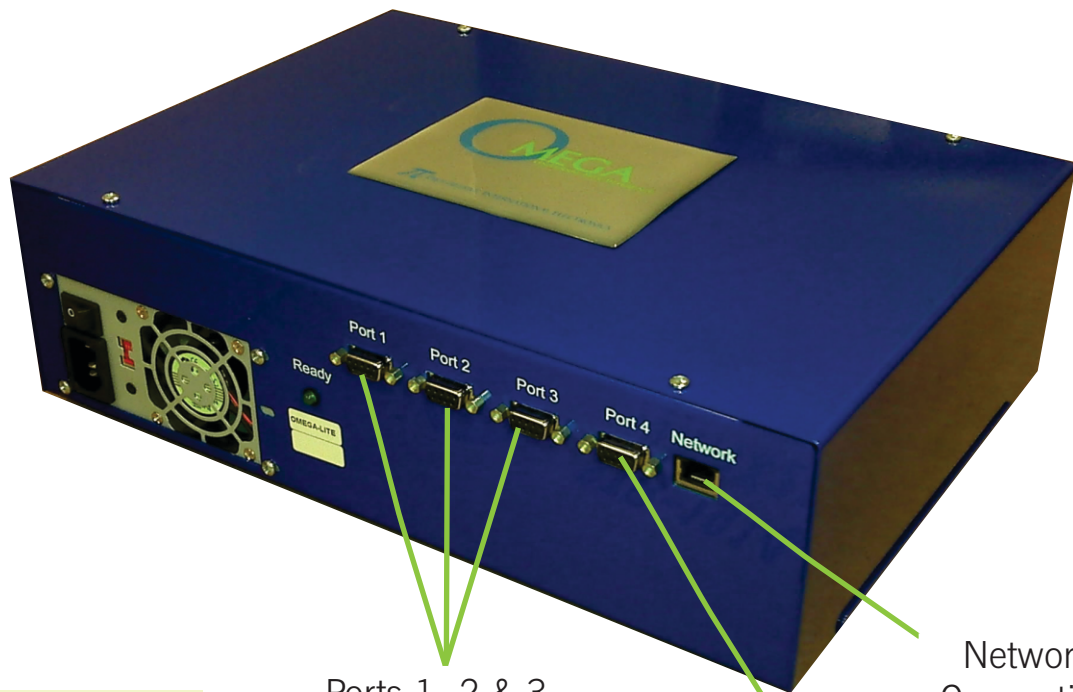

* Not authorized or endorsed by Verifone

OMEGALITE'S MAJOR ADVANTAGES

- PAM 1000 Protocol Interface
- Compatibility with all major dispenser brands, when used in conjunction with PI DBoxes
- Ability of one OmegaLite to run 3 different dispenser brands at a site
- Affordability — much more economical than its competitors
- Web-based connection to accomplish program setup and statistics
- ATG fuel inventory reconciliation
- Latest technology
- Field upgradable
