

# PIWEB WEB-BASED CONSOLE

from Progressive International

$\pi$  WEB  
managed from  
your mobile device or a PC

PiWEB is the simple solution to the complex issue of dispensing fuel. With Piweb's web-based technology, an internet browser serves as the user interface over the store's LAN and can connect to a wide variety of dispenser brands. Fuel dispensing can easily be managed over a smartphone, tablet or PC.

Ease of installation — dispenser wires directly into console and connects to mobile device or PC

Our most economical console

Controls a wide variety of electronic dispenser brands

Can control up to 2 fueling positions, depending upon the dispenser's capabilities

Reduced equipment needs....as basic as a smartphone for connectivity

Connects to dispenser's data wires, no DBox required

Easy-to-use user interface controls for Authorize Sales, Stop, Resume, and Complete Sale

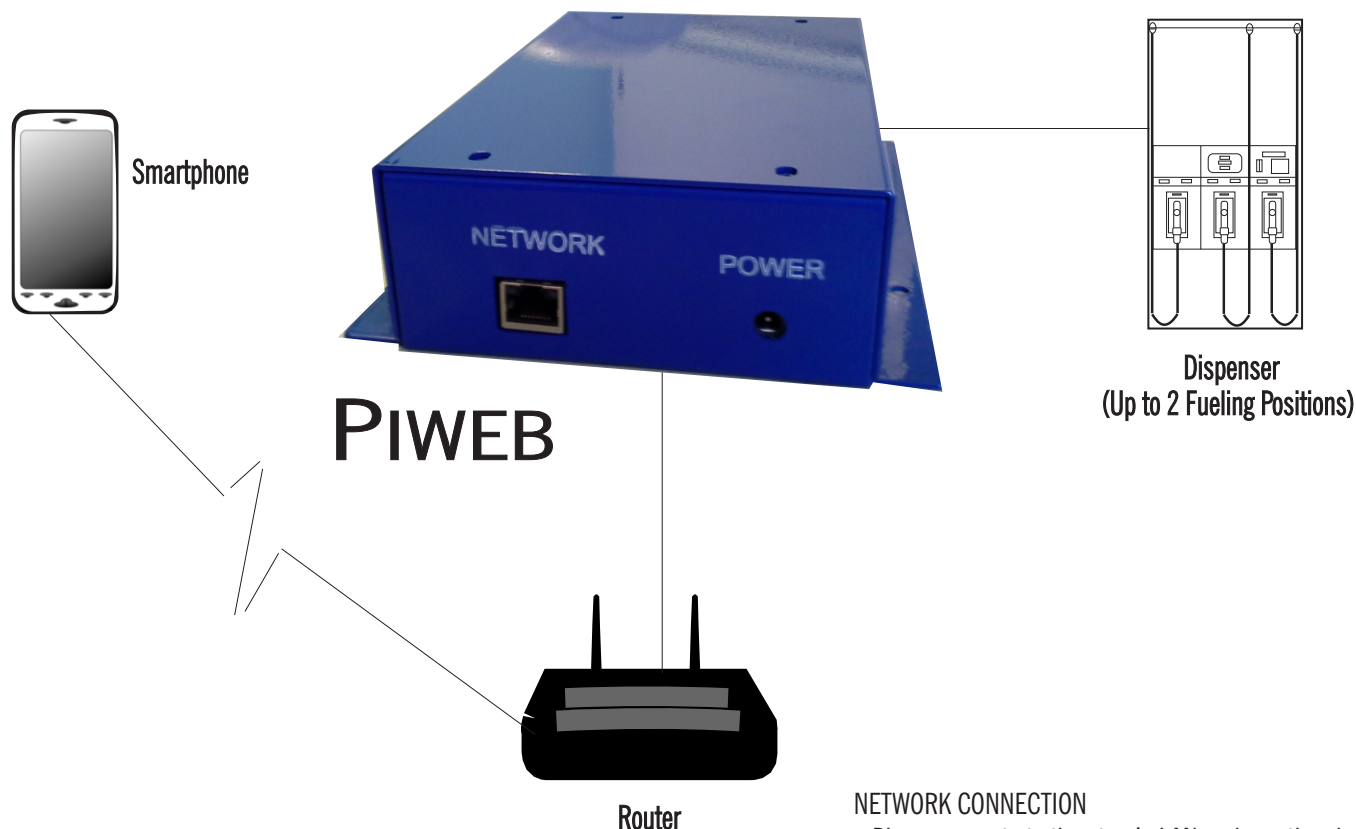

Polled totals report can be uploaded in a standard .csv format

Small footprint

INTERNATIONAL  
ELECTRONICS

# PIWEB

## Technical Specifications and System Configuration

POWER  
110 VAC 12 watts

ENVIRONMENT  
35-120 degrees F  
10-90% non-condensing humidity

SIZE  
7.5" x 5" x 2.0"

### NETWORK CONNECTION

PIWEB connects to the store's LAN and can then be configured to send the current price per unit to the dispenser, upload a report, and run transactions.

### DISPENSER CONNECTION

Data wires from the dispenser are connected to the PIWEB's circuit board, using the appropriate terminal block. Jumpers and dip switch are set to the interface type and to the dispenser brand.

### PROGRESSIVE INTERNATIONAL ELECTRONICS

*Progressive International Electronics' patented technologies ensure state of the art control capabilities for our worldwide market. Our staff is highly trained and ready to assist you with everything from product development to providing solutions to POS dispenser control.*
