

# $\pi$ CON Console Controller

from Progressive International

$\pi$ CON

**PICON is the economical solution to fuel dispensing. Using state of the art technology and design, Progressive has created a console controller for the future. Even at a fraction of the cost of competitors' controllers, PICON is feature-packed.**

Full featured console which includes prepay/postpay, preset, drive-away alerts, stacked sale, cash/credit operation

Management features including dispenser totals, shift totals, station totals, management security, and prices programmed by product

Multi-lingual

Control of up to 16 fueling positions, including all major electronic dispensers and new blending pumps

Audible alerts for call, drive-away and collect

Backed memory to retain data in the event of power outage

Built-in hardware clock to time stamp all reports

Compact size, allowing counter-top positioning or bracket mounting

Standard printer interface for use with most low-cost printers

Automatic Tank Gauging (ATG) interface capabilities

Ease of installation -- console wires directly into dispenser distribution box or Progressive's PI Dbox
